

REAGAN OFFICIAL ENDORSES BARTLETT FOR ND SENATE

I have been pleasantly surprised to find that a majority of people in the Bottineau, Renville, and Ward counties are conservatively minded. Please vote for me on November 4th so that I can represent your voice and concerns in the North Dakota Senate. The present North Dakota budget surplus is tempting the legislature to increase the size and scope of state government instead of returning that money to you. Last session, for example, 171 people were added to the

ND Department of Human Services. From its 1800s inception, the goal of social science has been to establish socialism, which is the economic control of people by government. It results in the state determining what is right and wrong and slowly undermines traditional Christian values such as the sanctity of life, right to bear arms, family authority, personal inalienable rights, constitutional liberties, the role of the church in helping the poor, free market economics, private property and much more.

Vote for me, or someone similar, that will boldly and accurately alert lawmakers to the very subtle traps set by liberal socialist philosophers, which deliberately steal our freedom and money through inefficient government programs funded by your taxes.

Even President Reagan's appointee to the Interstate Commerce Commission (letter to right) has been watching socialism progress in our District. Please vote for me on November 4th, to fight for individual and economic liberty and against socialism, which simply steals money from your neighbor and moves liberty from individuals to big corporations and the state.

Dear Dr. Bartlett:

I recently came across your interesting web page announcing your candidacy for the North Dakota 6th District senate seat.

You are to be congratulated for your stalwart efforts against the Dem-NPL's diabolical rent seeking assault on Federalist Paper #10.

Your insightful website exposing Democrat candidate David O'Connell's devotion to the 6th point of the Communist Manifesto brought to mind what President Reagan told me in 1981 when notifying me of my appointment to the ICC. He said that he hated "all the 10 points of Karl Marx" and added that he hoped many decent Americans would eventually join him in that belief.

Keep up the good work, and wishing you and your family God's continued blessings for your success on November 4!

With best regards,
